## STATISTICS OR LABOR.

One of the most valuable and important State documents, the report of the Bureau of Statistics of Labor, has just been issued from the press of Wright & Potter, State Printers, and we are informed by C. C. Willard, representative from Weymouth, for a copy of the same.

The Bureau is under the superintendence of Hon. H. K. Oliver, and to him and his deputy the public may look for a large amount of useful information bearing upon the subject of labor, with a review of the progress in the condition of workingmen in England from the 11th century to the present time.

This noble work is in state of comparative inaccuracy, the percentage being nominally slaves or bondsmen to the lords of the soil, and among those who attached to the rank of craftsmen were miserably compensated for their toil, being paid 6d. per day, working from 5 o'clock in the morning until 7 or 8 in the evening. Of course, under this state of things, pauperism would rise throughout the land £14,000 being expended in 1653, for the relief of the destitute. The yearly income of a laborer amounted to £4,100, and with a family of three he would require £14,120.

At a special meeting of Rochester Temple of Honor No. 32, a special meeting called for the occasion.

At a special meeting of Rochester Temple of Honor No. 32, called for the purpose of paying the last token of respect to our deceased brother, Porter C. Raymond, who died on his way through our city, and left at half Pastay afternoon, April 26th, 1870, W. C. Temple Monroe in the chair, Horace Jones, Joseph Hudlinson, and W. C. Buck were appointed a committee to draft resolutions expressive of the sense of the Temple, and submitted the following:

WHEREAS, the hand of the grim messenger Death has once more entered our beloved Order, and removed a brother who, though a stranger to us all, we regard as one of our great Brethren. Therefore, we, the members of Rochester Temple No. 32, would propose the following resolutions:

Resolved, that while we have in much submission to the hand of Him who has smitten, we feel that we recognize in this stroke a warning to us all to be ever ready for that final summons, and will endeavor to live, that when our turn comes, we may receive the welcome donation of Mr. Alvin Raymond, Jr., to us in behalf of the Church, extend to you our hearty thanks for the generous donation of meat furnished on Saturday, April 23.

JACOB N. L. BICKNELL, Secretary.

Resolved, that to that heart-stricken family to whom his remains are to be conveyed by one of our Temples, we can offer no consolation at all; adequate for the occasion, except to point them to Him who suffered beyond all human endurance, and who is ever ready to receive the cries of his children; and our prayer is that He will take them under His care and provide that consolation that is not in our power to give.

Resolved, that we will see our Brothertown remain decently confined and provide a member of our Temple to see the remains safely to his friends, and in doing so we feel that we are but doing what we would be glad to find others ready to do for one of our members.

Resolved, that a copy of these resolutions be sent to the friends of the deceased.

BOSTON, HARTFORD AND ERIE RAILROAD.

The friends of the Boston, Hartford and Erie road, claims that its great value to Boston is in a South Western line connecting with the Penn. Central Road, by which the business of Cincinnati may be brought to Boston, and thus the interests of emigrants in that City promoted. The claim that by this line produce could be brought from Cincinnati to Boston for export is quite untrue that it is doubtful if it be at all undertaken.

Railroad services will be held in the University Chapel, South Weymouth, next week, Tuesday, Wednesday and Thursday evenings, May 10, 11, and 12. A sermon each evening by different preachers from Boston. The public are invited to attend.

THE TRINITY CHURCH.—The young people of Trinity Parish, Weymouth, repeated their entertainment last Tuesday evening, in Washington Hall, a good number being present. The vocal music by the Weymouth Masonic Choir, was excellent.

Rev. Mr. Harlow leaves for his new home of ministry later in New Mexico, and the society have engaged Rev. Mr. Lloyd, formerly of Oxford, Mass. Boston.

THE UNIVERSITY.—The young people of Weymouth will be greatly interested in the proposed entertainment by the Weymouth Masonic Choir, to be held on Saturday evening, May 10, 11, and 12. A sermon each evening by different preachers from Boston. The public are invited to attend.

TEACHERS' ASSOCIATION.—The twenty-third annual meeting of the Norfolk County Teachers' Association will be held in Shrewsbury on the 27th and 28th inst. The exercises will be as follows:

*Fridays, May 27.*  
At 9 A. M., the Local Committees of Arrangements will meet the Members of the Association.

At 1 P. M., the Association will be organized.

At 2 P. M., a paper by Dr. H. D. Huntington on "The Importance of Teaching the Elements of the Natural Sciences in Primary and Grammar Schools," to be followed by a discussion on "The Elements of the Natural Sciences in Primary and Grammar Schools."

At 3 P. M., Select Readings by Prof. Tracy Barker, of Boston.

At 4 P. M., Paper by Mr. Thurman, of Hyde Park, on "How to teach the English Language."

At 4 P. M., Discussion on teaching History.

At 7:30 P. M., Address by the Rev. Philip H. Davis, of New Haven, Conn., on "Education of Girls."

After the Address, Miss E. E. Miles, of New Haven, Conn., will read selections from various writers.

Saturday, May 28.

At 8:30 A. M., Election of Officers.

At 9 P. M., Paper by H. H. Maxon, of Boston, on "Teaching as a Profession."

At 3:30 P. M., Discussion on "To what extent are we in the way ought the principles of Civil Government to be taught in Public Schools?"

At 10:30, Miscellaneous Readings.

A. G. R. MEDAL OF HONOR.—A

late meeting of the National Encampment of the Grand Army of the Republic, in New York, adopted a badge of honor, or, to be cast from bronze canon captured from the confederate rebels in decisive battles. The design is in the form of a five pointed star, similar to the medals of honor given by Congress to distinguished soldiers and sailors of the late war. They are to be furnished for

\$1.50 each.

## LOVELL'S CORNER.

Porter C. Raymond died in Rochester, N. Y. on Wednesday afternoon of last week, on his way home from San Francisco. Providentially, he had on his person a traveling card given him by Mechanics Temple of Honor, of East Weymouth, of which he was a member, and by this he was recognized by the Brothertown in Rochester, who took charge of the remains and affectionately cared for and collared them. They also held the funeral services of the Order at their depot, and marched with the remains to the depot, from whence one of the members accompanied him to Weymouth. Although the circumstances of the death are in a measure indistinct, the generous, benevolent, and brotherly demonstration which attended it, not only commands the admiration of all, but indirectly causes the bitterness of the event, and will no doubt be great despite the sorrows of his relatives and many friends. This noble act deserves imitation and commendation every where, and must tend to lessen the prejudices against private benevolent organizations.

The following is a copy of the resolution adopted by Rochester Temple of Honor No. 32, at a special meeting called for the occasion.

At a special meeting of Rochester Temple of Honor No. 32, called for the purpose of paying the last token of respect to our deceased brother, Porter C. The steamer Massasoit will commence her trips from Boston to North Weymouth, June 1st, under the command of Capt. Russell, formerly of the Ross Standish steamship. Parson French will preside at the organ, and the Society of Friends will be represented by their minister, Mr. W. C. Temple.

Resolved, that it is a consolation to us at this time to have the assurance that our brother has gone to that higher Temple fully prepared for the great change.

### THE FENIAN RAID.

The sympathy manifested in the United States for the burdened people of the Green Isle, is in some danger of being abated by the foolish and lawless irruption into Canada of bodies of armed men, from the United States, whose purpose was proclaimed by their leader to be the liberation of Ireland from British tyranny. President Grant has performed his sworn duty in issuing a proclamation admonishing all persons against taking part in the expedition, and the prompt forwarding of troops to the border to paralyze the movement, is in accordance with the tenor of the proclamation. All can realize that anything short of the performance of duty that would tend to precipitate a war between Great Britain and the United States, which would be a disaster world-wide in its consequences of ruin and national peril. The country is in a poor condition to run the risk of such a conflict, and every peaceable citizen will rejoice that summary measures have been taken to stop the raid. There is a large number of English-speaking parades in the principal cities for the struggle in the telegraphic despatches from various points, but in the face of the opposition of our own government, and the power of Great Britain, the raid will be a fizzle and damage the cause of Irish freedom in the future, unless quickly suppressed. The capture of Gen. O'Neill by United States Marshal Foster, and the defeat of his men by the Canadian volunteers at Piggy Hill, in the opening fight on Wednesday, was a severe blow to the hopes of the raiders, who apparently expected to capture Montreal without much difficulty. If the reports of their intentions have any show of truth, it is stated that the United States troops have orders to arrest all the Fenians that can be got hold of, and if so, the expeditions from the East and West will find considerable difficulty in invading Canada.

**ACCIDENT.**—Major E. C. Pierce, of Weymouth, was considerably injured on Friday last, at Quincy Neck. A horse which he had left standing for a moment, started off, and though Maj. Pierce succeeded in getting hold of the reins, he was thrown violently against a stone wall or fence, as we learn, sustaining considerable injury. The horse ran through a gateway, and across two or three yards before he was stopped. The vehicle was but little damaged, and the horse

recovered. The young man named Brown, who was suspected of robbing Mr. C. S. Clapp of Weymouth, of a sum of money, a few weeks since, was arrested in Providence on Thursday, charged with larceny in that city, and a description of his person being forwarded. Horace Clapp and Mr. McCloud visited Providence Thursday, and recognized him as the suspected thief.

In the Town and Country Magazine for December, 1870, the following marriage notice is recorded.—“At Gloucester, Hon. Cotton Tufts of Weymouth, to Miss Warner.

**HANOVER.**—The Hanover Baptist Sunday School has presented the Normal and Theological Institute at Nashville, with a good cow, for which they have the hearty thanks of our beloved correspondent and his pupils.

A man named Daniel Donahue, who is suspected of setting the fires which have occurred in East Abington, was arrested in Hanover last week, charged with firing the stables of Allen Blackman and Calvin Shepard, at Pembroke. He is considered to be a hard customer, first in Connecticut, where he had lived, having been attributed to him.

**BASE BALL.**—A match game of base ball was played on Saturday, May 14, between the Amazon B. B. C., and the Young America, B. B. C., of Weymouth. The score stood 60 for the Amazon's, and 6 for the Young America's.

**SURGICAL OPERATION.**—We made mention a few weeks ago of the swallowing of a shawl pin by Miss Eva F. Raymond, and her subsequent sickness. Her health having since that time somewhat improved, her friends considered it safe for her to undergo an operation for the removal of the pin, which was lodged in the Massachussetts Hospital and the operations were successfully performed, much to her gratification and relief. A number of sympathizing friends have generously made arrangements for an entertainment at East Weymouth, the proceeds to be applied to her benefit, and have announced the entertainment for this evening. The East Weymouth Singing Club, South Shore Orchestral Union, and other vocal and instrumental talent, will appear.

**LOVELLY'S CORNER.**—**ACCIDENT.**—Last Saturday forenoon while the boy doctor of Timothy Mahoney's residence of this place, was caring for his young patient James Mather, six years old, was endeavoring to enter the east window to the cause of his foot on one of the spokes of the wheel, which brought his leg against the rear of the cart, breaking his leg below the knee. Doctors Fuy and Warren attended him and the boy is going well.

**APPLICATION OF A TAXI.**—Last Sabbath, in a church within the boundaries of Norfolk Conference, three strangers who were prospecting for a pastor, made their appearance after the morning service had commenced and were ushered into a pew by the sexton. The preacher was one whom they were endeavoring to secure for their pulpit, and when he announced his text, “Go home to thy friends and tell what great things the Lord hath done for thee,” an involuntary smile crept over their countenances at the apparent, though unintentional application of the text to their visit.

We are indebted to Dr. Turner Torrey, of Washington, for documents relating to various subjects.

**A VALUABLE HOME INJURED.**—A black marble top of a sofa formerly owned by M. G. Dyer, of East Weymouth, and lately bought by Mr. John Ford, liver stable keeper of the Landing, was driven so hard on Sunday last, that the animal has since been in a very critical condition.

### BUILDING A HOUSE.

NO. 1.

Said a gray-haired deacon, who was conversing with us relative to a case of woful wedded bliss, “what can you expect when two humps of total depravity try to live together? And we have handed down to us from some forgotten Sodom, the proverb that ‘no house is large enough for two families,’ a fact so well known to the Romans if it be possible, as much as hell is in you, and especially with all men.” Sooner, or later, every tenant comes to the conclusion that the money comes, and the great apostle to the Gentiles knew what they were talking about. The result is, a house lost, and determination to build. What size, and shape shall your house be? You go up and down the streets with a new purpose, buying out the land, but the houses above like boxes, only they had roofs, and chimneys—swelling, with arms like eagles’ claws—chimneys large enough for a young pyramid, or, else, too small for a fashionable merchaunce—thus looking houses utterly ruined, in appearance through wobbliness with gawky similes—by being fenced economically—or, perhaps even by a rusty, ill-conceived marble box put up in the front yard, of course, and made on a lady’s check. You have a house, and all its surroundings, symmetrized in a new purpose, but the unfeigned blood shown, subjects of the most debasing commerce the world has known. Eight miles further, through a country thickly inhabited and traversed without stopping, and we pass the

**BATTLE-FIELD OF STONE HILL.**—where a bloody battle was fought Dec. 18, 1862. The country in this vicinity is quite level, and clothed, as it was when we saw it, in summer verdure; it seemed all too lovely for the bloody deeds of savage men. This bloody field decided the fate of Murfreesboro, which ever after remained in the hands of unionists. The natural viceroy is on this battlefield, and possesses natural advantages which render the spot very attractive. It is kept in excellent order. The graves are as regular as hills in a corn-field. Many of the head-bearers, marking the graves of the fallen heroes, bear away the mournful word, “unknown.” Near by is a substantial monument raised on the spot where Gen. Gill fell.

Two or three miles further on we come to

**MURFREESBORO.**—In this pretty little town, broad and neat streets, fine dwellings and substantial churches. It has a large colored population, and since the war has grown quite rapidly. Here we were the guest of Mr. NAPOLEON BOHARATE FRIENDS, a gentleman of color, whose grand-parents were stolen in Africa, and spent their lives in being civilized under the benign institution of American slavery. Being thus shrewd, Rev. Mr. Boharate managed to steal learning enough, while a slave, to enable him to read and write, till such time as his masters would as soon trust their slaves with powder as with paper and ink. Some did not object to their learning to read, but would not allow them to write. After the war broke out, my colored friend went to Murfreesboro, and soon obtained a school for the benefit of his own people, and organized a church with but few members. His labors were diligent, & a passion since, and now has claim to being one of the most popular colored schools in the city last winter. He sits this side his lone organized school.

At last you find some one that does not appreciate the virtue which lies hidden within unseemly looks, purchases your covetous gaze, with “fair” eyes, and cannot be purchased at that, or any other price. These jagged lines of fence have one quality that allows for all their misgivings, and gives them more than a money value (what Paul called the crowning excellency of the Christian “having done all”) viz: they will “stand” till an earthquake shake hands with them.

Resolved, That those main channels of transportation, created for public benefit, have now become powerful instruments of private speculators to levy fraudulent taxes on their patrons, it is high time that stockholders of the Boston and Albany, the Old Colony, Boston and Maine, Eastern, and other railroads, should be relieved from the curse of receiving more dividends on original investments, which the people have returned to them many times over, and those lines, like post offices, hereafter serve the general public well in cost.

Resolved, That President Grant and ruling politicians are using the eight-hour law to strangle the labor movement, the Republican party, notwithstanding its great service to civilization as a political agent to emancipate and enfranchise a race, being now as fully controlled by an aristocracy of bankers and bondholders as the Democratic party was by an aristocracy of slaveholders; that what the dash was extorted from negroes with the consent of Calhoun and Webster, in infinitely greater proportions, through legal chicanery, is now forced from business men and all other laborers, by the persistent aid of Horace Greeley and Charles Sumner.

Resolved, That in rejoicing in the tenacity of workmen to cut loose from parades, and make the interests of labor paramount to all other considerations, we yet perceive that they do not always work to the best advantage, so long as they continue to sit with their hands in their pockets, in concealing the right of contract, in regarding the right of contracts, refused to authorize the opening of public libraries on Sunday, denying suffrage to women, and preventing by pernicious enactments the payment of debts already discharged in the bars post offices, hereafter serve the general public well in cost.

A SPLENDID ASSORTMENT OF

FURNISHING GOODS,

Suitable for this season, and at prices so low that the poorest among us can obtain a good serviceable and genteel suit of clothes for the price usually asked for inferior goods.

REMEMBER!

THAT AT

WILLIAMS'

THEY HAVE

ONLY ONE PRICE,

So that if you are not a judge of the goods you wish to purchase, this is just the store for you, for they sell their goods to everyone at the same price. Many people have an idea that it does not make much difference at what store they purchase their goods, but if such ones will call at

WILLIAMS',

They can be easily convinced, that there are many reasons why

WILLIAMS

Can sell goods at prices less than many others obtain for goods of the same quality. We are always glad to have people call in and examine our goods.

JUDAH

Shall Judah's sons, the sons of Jesse,  
And stand to earth to count the sum of his?—  
Like worthless chaff that east with the wind,  
Far, far away from Judah's little hills.

Father, say forever?

And shall Jehovah's promise, made

To Abram, issue Jacob fair,  
Shall all then Heav'n's wrongs visit us?

While Judah's daughters weep with wail,

Father, say forever?

At once, the promise of their God,

Will gather Judah's scattered race,

Heleste the desolate land,

And purify the Holy land,

Father, say forever.

Again shall Judah's hills resound

With song, and joy, and songs of peace;

The dead shall live; the dead be found;

And God will justify his ways,

Father, say forever.

F. M. ADLINGTON.

Weymouth, Mass.

THE HUG OR DEATH.

It was in the year 1812. The morning star was duly discerned through the heavy mist that lay upon the bosom of the rejoicing waters, which sparkled with delight, like the eyes of a maiden at the approach of her lover.

Then, heavy and massive, was seen a mighty ship, slowly rising and falling with the waves, at the same time rolling from side to side, her main truck describing an arc of many degrees on the heavens, and her lower ports washed by the sun at every swing. Her star-deck guns, however, had not been run in, and threatened all comers like the teeth of a snarling dog.

Then the crew exhibited none of that sympathy for the "ensued Yankees," which they had shown for their fellow countrymen, Watson and Burton. They crowded up as closely as the rules of the service permitted,ittering audibly, and evidently fearing the discomfiture of the friendless foreigners. The doctor and chaplain were particularly merry at the prospect of seeing a Yankee prisoner's obstinate flogged out of him.

Butt glanced around him at the grinning countenances, in which not a particle of lamina sympathy was visible, and evidently felt that his case was a desperate one; yet no change came over his countenance, only, the marten from whom I received the account stated that at that moment, his dull blue eyes he came still more meaningless, almost as if their light extinguished, till they resembled the eyes of a dead man, inexpressive and fixed.

I made no answer to the captain's last observation. The latter added, after a brief pause:

"You've now got to abide by the rules of the English service, and I ask you once more if you will obey orders even when commanded to fight the enemies of England?"

"I consent not," was the reply, "because—"

"Trice him up," said the English captain: "I'll skin the Yankee dog alive, but what I'll—"

In his rage, the captain had sprung two paces forward, and stood exactly opposite the open gangway. The Yankee made a step toward the master-at-arms, as if about to deliver himself into his hands, and then sprang sideways as quickly as lightning, gashed the British captain around the waist, and leaped with him through the gangway into the sea.

"All was confusion at once, one sprang to the rail and looked over the hammock nettings, but nothing was to be seen on the surface.

"Cut away the buoy!" yelled a quartermaster.

"In rolling sails, and go about!" was the next order.

The last order was obeyed as quickly as possible. Then one of the cutters was lowered, and sprang into the water, and then sprang to the rail and looked over the hammock nettings, and then they went across the deck, and so to go at sixes and sevens, and this is the place where woman's rights should be taken into account, for a woman's right to roll over in a hammock netting is a right that every man should have.

Long the ship continued cruising about the place where the captain and his destroyer went down; every eye was on the alert; officers peering over the railings into the sea; the men on the yards looking down into the blue depths of the ocean; but nothing was visible except the restless waves, rolling eternally over the spot where the British commander had lost his death.

A great many women sank under the weight, then every body says, "poor thing, she always was a weakly, good-for-nothing creature," and the "poor thing" has been doing more for the last ten years than two women ought.

DIFFERENCES OF FAITH.

A witty writer touches up the fondness which civilized people manifest for splitting up into small bodies on minor importunities, by imagining the following scene in a benighted land, and among savages:

"It does not matter which," said the Chinaman.

"How is this?" queried he. "You say that it does not matter which—that is, fearful!"

"It does not in the least matter whether it is a tom-tom or a horn," said the Chinaman. "Why should it?"

"Do you go through sir?" asked the conductor.

"Yes," replied the sleepy-head with a yawn.

"I'll take your fare."

"How much?"

"Eleven shillings."

"Well, that's cheap."

(Supposing doubtless that he was paying from Rochester to Auburn.) And looking over the amount, he insisted in his former position, to finish his snooze. "Two hours more brought them to Attica; but not even the noise and confusion at that point, nor the sonorous announcement that the ears will stop fifteen minutes and give passengers plenty of time for refreshment," could "disturb the slumbers of our friend."

With the permission of their chief, he summoned the tribe. They came like lumps.

"Oh," said he, "I am pained to find that you are indifferent as to whether a tom-tom or a horn is used to summon you to your devotions."

"We are quite indifferent," said they, with one voice, "so that we are summond for yourself."

"But, observe; if a horn is right, a tom-tom must be wrong. So, likewise, if a tom-tom is right, a horn is out of the question."

"Why?" said he, "Why, of course!"

"I see," said each savage, thoughtfully.

The captain was grasped at the back by a pair of the nippers, and when it was found that they could not be separated, he was led up to the deck, and there stood up for the horn, and those who stood up for the tom-tom.

The Chinaman, or High Priest, endeavored to win the converts, but the Indians, who were the most active, soon overcame the English.

"Well, that's cheap," said he.

"Stop," said he. "I am pained beyond measure to see this. What are the ingredients of a plan-potting to the shape of the mould in which it is boiled?"

"Nothing at all," said the Chinaman.

"He addresses the Horn party, and said,

"I suppose with pain that some of your horns are long, and some are short."

"Tubbed his eyes—stared again—looked at the lampes—then at the conductor, and finally exclaimed—

"Look here, friend, I should just like to know who's I am?"

"Why, in Buffalo, to be sure; you can't go any further west on this road."

"Well, this is pretty business. Last night I took the cars to go to Syracuse. If I ain't in as there never was one."

So the Horn party was divided into two sets—the Long Horns and the Short

## HOW MANY WIVES FADE.

How many pale, lifeless women you see in the West, and the East, too, for that matter.

Now, Mr. Yankee, what's your name? Do they address the Tom-tom party, and said: "I am grieved to see that some of your tom-toms are long and narrow, and some of them are short and stout. It is right that a tom-tom should be long and narrow, it is a sin to use that that are of diametrically opposite form."

And the tom-tom party were accordingly divided into two sets, the Long and Narrow Tom-tom, and the Short and Stout Tom-tom.

And the feud that existed between the Horn party and the Tom-tom party, was nothing to that which raged between the Long and Narrow Tom-tom party, and the Short and Stout Tom-tom.

A San Francisco school teacher received the following: "I hope as to my John, you will flog him just as often as you can. He's a bad boy—is John Allis, it seems to me he never will learn anything—his spelling is atrociously deficient. Wallop him well, and you will receive my thanks." P. P. What accounts for John being such a scholar is that he is my son by my wife's first husband."
